Implementation Notes

Comments: FTP Name: Andor Junction Mix. These stands were cut in 2018. Stump heights vary/ unknown. Roller chopping needed throughout. The treatment is to trench and plant areas that did not meet acceptable regen and to accept the regen in areas that are aspen dominated. Stand is rolling to flat. Some areas of aspen regen are included to square up planting.

Prescription

Cover Type Obj: Planted RP

Acceptable Regeneration is a fully stocked stand of red pine with minor component of other native species.

Some areas of aspen regen included to square up planting

Approved Methods: Chop, Trench, Spray and Plant to RP at standard spacing per TMS specifications.

Planting treatments were approved through Compartment Review.
