

Michigan Department of Natural Resources - Forest Resources Division
FOREST TREATMENT PROPOSAL

FTP# W72-955

Forest Management Unit Grayling			County Crawford & Oscoda	Timber Sale Number: 72-045-16	Comps 21 & 289	2021 & 2026 YOEs
				Harvest Completed By: 2019	Stands 61 (Comp 21) & 19 (Comp 289)	
Township 28N	Range 1W & 1E	Sections 25 & 30, 31	Cover Type Objective: Prairie & Barrens			Acres: 114

Internal Review Comments			Approvals		Prescription
REC: Snowmobile, Equestrian & Hiking Trails, Walsh Road Trail Camp			Signature	Date	Approved Methods: Burn periodically in order to promote dry sand prairie and pine barrens species and set back woody plant succession.
WATER: Middle Branch of Big Creek & Big Creek Impoundment					
HAL: Homestead site is within the retention island that splits stand 61					
MNFI: Hill's thistle, Rough fescue, KW					
Revised & Reviewed: 09/23/2024 Charlebois					

Additional Instructions & Notes

A spur of the horse trail crosses through the retention island that separates the north & south burn units of stand 61. That island protects a homestead site, so equipment must stay on the road through it. The first version of this FTP was approved in early 2024. This revised version adds stand 19 to the Walsh Road Barrens burn area, as prescribed through the 2026 YOE planning process.
