

Canada Creek Highway

Fish Species

Brook Trout

Species Description

Brook trout are the primary trout species encountered at this location.

Geographic Coordinates

Lat:45.218433 / Long:-84.213667

Noteworthy

This smaller stream offers quality brook trout opportunity in this reach but the river is typically smaller than the Black River system. Substrate here is primarily sand, with some gravel and cobble present.

Fishing Regulations

This site on Canada Creek is a designated Type 1 trout stream. Please refer to the Inland Trout and Salmon Stream Regulations in the current Michigan Fishing Guide.

Directions to Site

From M-33, turn west on Bear Den Road and continue 0.2 mile to turnoff on right which is immediately north of road/stream crossing. Continue 0.1 mile to site and parking area.
