

## South Branch Au Sable River Truettner Tract

---

### ***Fish Species***

Brook Trout; Brown Trout

### ***Species Description***

Wild brook and brown trout are both present here. Brook trout up to 9 inches are common and brown trout can grow to 20 inches or larger in this reach.

### ***Geographic Coordinates***

Lat:44.621577 / Long:-84.467661

### ***Noteworthy***

Cobble, gravel and sand holes are all present here. There is also a fair amount of wood in the stream. Wading is generally pretty easy but there are some deep holes to be aware of. This is on State land but anglers should be aware of some private property.

### ***Fishing Regulations***

The South Branch Au Sable River at the Truettner Tract is a designated Gear Restricted Stream. Please refer to the Inland Trout and Salmon Stream Regulations in the current Michigan Fishing Guide.

### ***Directions to Site***

From the Smith Bridge/M-72 crossing, head west and take the second two track to the north to the parking lot. Use the stairs to access the river. This site is just over 12 miles to the east of I-75 off of M-72.
