

## Historical Marker - L1047A - Webster Township Hall (Marker ID#:L1047A)

### Front - Title/Description

#### **Webster Township Hall**

In 1976 Webster Township Hall, built in 1871, was the sixth oldest township hall in continuous use in the state. The structure, which replaced a building at Scully and North Territorial Roads, was designed by Isaac Terry. Its cost of \$1,758.17 included the land, fence, and hitching posts. It relied on kerosene lamps as late as 1920 and on a wood burning stove until 1970. The room at the back of the hall was added in 1948. Among events celebrated at the hall was the 1933 Webster Township Centennial.

#### **Significant Date:**

Civil War and After (1860-1875)

**Registry Year:** 1982    **Erected Date:** 1983
