

## Canada Creek CR-634

---

### ***Fish Species***

Brook Trout

### ***Species Description***

Brook trout are the primary trout species encountered at this location.

### ***Geographic Coordinates***

Lat:45.241683 / Long:-84.228867

### ***Noteworthy***

This smaller stream offers quality brook trout opportunity in this reach but the river is typically smaller than the rest of the Black River system. Fish up to 10 inches are common, larger fish are more rare. Substrate here is primarily sand, with some gravel and cobble present.

### ***Fishing Regulations***

This site on Canada Creek is a designated Type 1 trout stream. Please refer to the Inland Trout and Salmon Stream Regulations in the current Michigan Fishing Guide.

### ***Directions to Site***

From M-33, 8.2 miles south of Onaway, turn right (west) on CR-634 and continue approximately 1.0 mile to site. The turnoff on CR-634 is approximately 17.5 miles north of Atlanta.
