

West Branch Maple River Robinson Road

Fish Species

Brook Trout

Species Description

Brook trout is the primary species of fish you will encounter on the West Branch Maple River, although you will occasionally catch a brown trout or rainbow trout. Most of the brook trout encountered here will be small, but fish up to 11 inches are present.

Geographic Coordinates

Lat:45.55087 / Long:-84.79803

Noteworthy

More information about the Braun Nature Preserve may be found by visiting <http://landtrust.org/LatestNews/Braun.html>

Fishing Regulations

The West Branch of the Maple River is a designated Type 1 trout stream. Please refer to the Inland Trout and Salmon Stream Regulations in the current Michigan Fishing Guide.

Directions to Site

The parking lot for this access site is just west of the Robinson Road crossing of the West Branch Maple River and west of Pellston. The parking lot is for the Little Traverse Conservancy's Braun Nature Preserve. The river can be accessed from the nearby Robinson Road bridge or via a trail from the Braun Nature Preserve parking lot.
