STREAM SURVEY SUMMARY form, R-8064 (reduced to fit on this page).

ream		T R Sec		
ounty		ld	ST	REAM SURVEY SUMMAR
_	e system			
. Station:	Length (m)	Avg. width (m) _	Are	ea (ha)
	Avg. depth (m)	Velocity (m/sec) _	Dis	scharge
	Color and turbidity			
. Names				
. Water s	source (springs, groundwater,	etc.)		
	y of flow			
. Barriers	s (dams, waterfalls, wiers, etc Location	.)Owner	Use	Head
	Location	<u> </u>		
. Surrour	nding country (topography, so	oil, cover, use)		
B. Access				
9. Erosion	n (source, severity)			
	on			
	ties			
	es es			
	85			
	ore			
4. Predato	ors			
4. Predato				
4. Predato 5. Beaver	. (√): Size large me	odium small; Type deep	moderate shallow	
4. Predato 5. Beaver	· me (√): Size large me Frequency many			
4. Predato 5. Beaver	(√): Size large me Frequency many m types∛: Pools	dium small; Type deep frequent infrequent		
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr	(✔): Size large me Frequency many m types& Pools Riffles ning grounds	rdium small; Type deep frequent infrequent		
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati	(✔): Size large me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span	Se	
4. Predatt 5. Beaver 6. Shade 7. Pools 8. Botton 9. Spawr 20. Aquati 21. Fish fo	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (*	ed): Abundant Moderate Span	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for	Frequency manym types& Poolsmiffles ning grounds ic vegetation (% of stream be ood organism abundance (\nslant g (reputation, history)	ed): Abundant Moderate Span	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin	Frequency many me Frequency many my Types& Pools miffles ic vegetation (% of stream be ood organism abundance (\nspace g (reputation, history) mit stocking means frequency in terms of the stocking means in the stocking means frequency in the stocki	ed): Abundant Moderate Span	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor_	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	ed): Abundant Moderate Span	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor_	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor_	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor_	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor_	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	rdium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor_	Se	
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawn 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many multiposition (% of stream be dood organism abundance (v) g (reputation, history) multiposition (v) g (respectively) from the species fish species from the species fro	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawn 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many m types& Pools Riffles ning grounds ic vegetation (% of stream be ood organism abundance (\$\$ g (reputation, history) int stocking it management	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawn 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many multiposition (% of stream be dood organism abundance (v) g (reputation, history) multiposition (v) g (respectively) from the species fish species from the species fro	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawn 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many multiposition (% of stream be dood organism abundance (v) g (reputation, history) multiposition (v) g (respectively) from the species fish species from the species fro	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many multiposition (% of stream be dood organism abundance (v) g (reputation, history) multiposition (v) g (respectively) from the species fish species from the species fro	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	
4. Predato 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many multiposition (% of stream be dood organism abundance (v) g (reputation, history) multiposition (v) g (respectively) from the species fish species from the species fro	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	
4. Predatch 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawr 20. Aquati 21. Fish for 22. Fishing 23. Recen 24. Recen 25.	Frequency many me Frequency many must repeat Pools maining grounds food organism abundance (v) g (reputation, history) must stocking must management fish species fish species	rdium small; Type deep frequent infrequent ed): Abundant Moderate Spar. by: Exceptional Average Poor Relative abundance	Predominate size	Growth (good, avg., poor)
4. Predatt 5. Beaver 16. Shade 17. Pools 18. Botton 19. Spawn 20. Aquati 21. Fish for 22. Fishin 23. Recen 24. Recen 25.	Frequency many me Frequency many must repeat Pools maining grounds food organism abundance (v) g (reputation, history) must stocking must management fish species fish species	edium small; Type deep frequent infrequent ed): Abundant Moderate Span b: Exceptional Average Poor Relative abundance	Se	Growth (good, avg., poor)
