County Montmorency	Town 31N	Range 01E	Subdivision Sec. 15	YOE 2019	Compartment(s) 29	Stand(s) 30
-----------------------	-------------	--------------	------------------------	-------------	----------------------	----------------

Cover Type Objective:	PLANTED RP	Acres:	22.6
Approved Methods:	Use any appropriate site preparation method per TMS.		
Treatment Number(s):	54029030-Prep		
Timber Sale Number:	Biehl 3-Point Mix 54-015-20		
Sale Admin Staff:	Natzke		
Contract TCR Date:	03/14/2022		
Comments:	Flat, dry upland chip harvested summer 2021. The site should be clean barring a few stumps pulled out near the road. There is a moderate amount of aspen saplings and seedlings becoming established.		

Proofing Comments	
Recreation:	The High Country Pathway traverses the eastern half of the treatment area.
Water:	None within 500-ft
HAL:	None within Rx areas
MNFI:	None within Rx areas
Other Comments:	54029069, a stand of about 12 acres, not depicted in this map, has planted red pine as a back up if natural regeneration fails. Protect trails and roads as shown on the map. Flagging the HCP may be beneficial. Original Rx suggested working with Parks to move the HCP to the western boundary of the harvested area.
