HAL: none		Approved Methods: Chop/Masticate, Trench, Spray and Plant to RP at standard spacing per TMS specifications.
MNFI: none		
Drafted & Reviewed: 1/27/2026 TK		

Implementation Notes

Comments: FTP Name: Smokey's Home Pine Oak

The stand was harvested at multiple different times (Feb 2024-Jan 2026) resulting in areas having more deciduous regeneration as well as more breakdown of slash. Was not chipped due to poor chip market. Oak tops were scattered, ran over or thrown to the edges to help reduce issues with cultivation treatments. The west/northwest portion does contain lowland ground with hummocky areas. Any Oak stumps that could not be cut flush were left high (+4 ft) to help with visibility during trenching.
