HAL: None		Acceptable Regeneration is planted Jack pine for KW habitat.
MNFI: Follow KW restrictions for operations.		Approved Methods: Masticate, Trench, and Plant to JP at standard spacing per TMS specifications.
Drafted & Reviewed: 04/16/2026 Neff		Planting treatments were not approved through Compartment Review, but approved through Variance 54-52-25s. MIFI Start Date: 10/01/2025

**Implementation Notes**

Comments: The treatment is to masticate, trench, and plant to Jack pine. Follow KW restrictions for operations. Within the southern portion of 54124009-Prep clumps of larger pole size jack pine were left along with scattered large pole pin oak. Protect High Country Pathway within 54125058 along with the MCCCT Trail in 54125031. Portion of 54124009-Prep will be burned to facilitate reproduction and forest regeneration.
