HAL: none		Approved Methods: Chop, Trench, Spray and Plant to RP at standard spacing per TMS specifications.
MNFI:		Additional Treatments may include herbicide spraying, and pre-commercial thinning.
None- Hill's Thistle-Last Obs 1890 Historical		

Implementation Notes
Comments: FTP Name: Ice Brown Red Pine Salvage. This sale was harvested 05/27/26. These stands were a part of the ice storm salvage and were cut in the late winter and spring of 2026 . Potentially plant with stand 65 to increase planting acreage due to small size of stands that were salvaged, and poor regeneration in stand 65. Stand 65 harvested in 2021 54-034-17 Stands 27 and 46 have a trenching treatment, and stand 65 has a rollerchopping treatment.
MIFI Start Date:
