Comments: Stand 15 was originally two stands merged following harvest (Comp 223 Mix #72-035-17). About 16 acres of which was declining oak and the rest was jack pine with oak. Sale was low stumped and chipped. Topography is flat. Do not plant stands 78, 71, 17, and 19 as they all have natural regen objectives but, were harvested in same sale as stand 15. Have forester flag in line before prep if needed. Stand 405 is to be maintained as WL opening Snowmobile/ORV trail adjacent in NW
