REC: Designated Snowmobile and ORV Trail within vicinity of treatment
Water: Muskrat Lake w/in 500 ft
HAL: None within treatment area.
MNFI: Kirtland's Warbler and Prairie Warbler
Drafted & Reviewed: 12/02/22

ACTIVITY TRACKING	

Covertypes Objective: Planted Jack Pine	Acres: <b>288.3</b>
Approved Methods: Trench and plant JP per TMS specification.	
Timbersale number: 72-020-20	
Sale admin staff: Price	
Harvesting completed by: November 2022	
Contract TCR date: November 2022	
<p>Comments: Sale Harvested under contract 72-020-20 Muskrat KW. Treatment area is primarily flat with some rolling hills. All trees were harvested with a buncher resulting in low stumps. Sale was primarily tree length harvested and chipped, however market conditions required production of clean chips at times. This resulted in some additional slash accumulation in the southern and northeastern portions of the treatment. Slash should not impede trencher operation. Trench through blocked temporary access roads within treatment area. DO NOT trench or plant in the 5 chain fuel breaks adjacent to the south and east of treatment area.</p>
