HAL: None			Approved Methods: Chop/Masticate, Trench, Spray and Plant to RP at standard spacing per TMS specifications.
MNFI: None			
Drafted & Reviewed: 10/1/2026 TK			

Implementation Notes

Comments: FTP Name: Pineway Robbery

The stand was harvested during the summer of 2026 under the sale name "Pineway Robbery" (72-016-25). Chipping was required on the sale, so slash has been adequately mitigated. Most of the terrain is flat. However, the finger on the west side of the stand may have to be flat planted due to its steep slope. There are two gas wells that are on the edge of the treatment which have underground lines that run along roads in the area. This treatment will have to be evaluated for skidder spraying due to scattered residual white oak.
