ACTIVITY TRACKING

Covertime Objective: FLAT-PLANTED RP	Acres: 30
Approved Methods: Herbicide and flat-plant RP (no-trench/unfurrowed). Pre-commercial thinning may be done to release the planted RP from competition.	
Timbersale number: 72-036-12	
Sale admin staff: (Rx'd at re-inventory)	
Harvesting completed by: 2018	
Contract TCR date: 1-25-2019	
Comments: Harvest completed in 2018 but not planted due to potential for unmapped surface pipelines in this sour gas field. The decision was made at reinventory to use the flat-planting technique: site-prep spray followed by unfurrowed planting. No trenching or chopping due to pipeline concerns. After submitting any needed MISS DIG 811 tickets, contact BreitBurn (Maverick) before operating equipment in the area: Greg Dodge 231-735-6106, 7 Mile Road BreitBurn Office.
