Comments: Stand 1 was cut and chipped in the spring of 2021, Tetris Pine Final. The south boundary has a lowland transition and slope that was excluded from planting area. There is also a finger in the north that will not be planted. There is a snowmobile trail that you use to access sale from the north but, is not adjacent. Sale is large enough to aerial spray. Landowner on west and south boundary use road to access property. Cabin located on south west corner.
