FOREST TREATMENT PROPOSAL

Proposal: **C72-930** Location: Grayling FMU

Sec. 33, NENE, S1/2NE, N1/2SE, SWSW YOE: 2021 Comp: 11

PROOFING COMMENTS

Rec: Designated ATV Trail crosses through both stands

Water: none w/in 500 ft

HAL: None within treatment area.

MNFI: None within treatment area.

Proofed & Edited 12/28/22 JC Drafted 10/24/22

ACTIVITY TRACKING	

Covertype Objective: Planted Red Pine

Approved Methods:

Trench and plant RP at standard spacing. Additional treatments may include chopping, herbicide, & pre-commercial thinning. Leave open all traversable roads & ATV trails within the planting area.

Timbersale number: 72-018-21

Sale admin staff: Kubitskey

Harvesting completed by: August 2022

Contract TCR date: 10-3-2022

Comments:

Stand 37 is on relatively flat ground. Leave open the former wellsite and its access road for future management access.

Stand 47 has some steep topography that will limit trenching. Access into stand 47 was from the east off the snowmobile trail. An old road was opened up and reclosed after the harvest. Keep all closed roads closed.
