ACTIVITY TRACKING	

Covertype Objective: PLANTED RP	Acres: **30**
Approved Methods: Trench & plant RP at standard spacing. Additional treatments may include chopping, herbicide spraying, and pre-commercial thinning.	
Timbersale number: 72-007-20	
Sale admin staff: Mittig, Price	
Harvesting completed by: Summer 2021	
Contract TCR date: 5/04/2023	
Comments: Contract was held open due to stump height concerns. Site was evaluated this spring and determined to be trenchable as-is. It is recommended that equipment operations be carried out before the ferns jump up so that taller stumps can be seen. Harvest access was by way of an admin access road off the snowmobile trail parking lot. Cultivation access can be by way of River Park Drive. A 1986 DNR survey shows that the road is entirely on State land up to the east edge of the FTP area.
