FOREST TREATMENT PROPOSAL

Location: Grayling FMU Proposal: C72-942

County: Crawford | T28N | R4W | Sec. 8: NW | YOE: 2022 | Comp: 170 | Stands: 24

PROOFING COMMENTS

Rec: none w/in 500 ft
Water: none w/in 500 ft

HAL: Features excluded from treatment boundary -

see Restricted Area on map

MNFI: No hits w/in Rx area. EMR Managed Lands

across Manistee River Rd

Drafted & Reviewed: 10-13-2023

ACTIVITY TRACKING	

Covertype Objective: PLANTED RP

Approved Methods:

Trench & plant RP at standard spacing. Additional treatments may include herbicide spraying and pre-commercial thinning.

Acres: 86

Timbersale number: 72-024-22

Sale admin staff: Charlebois

Harvesting completed by: August 2023

Contract TCR date: 8-17-2023

Comments:

Pipelines and electric cables are buried along the County roads and wellsite access roads. Harvested strips between roads & utility corridors were excluded from the trenching boundary. Stumps were allowed taller & saplings were not cut cleanly in those no-trench areas, in addition to in the shade of residual oak, in the steep ditches of the former railroad grades, and on the dirt berm around the former wellsite in the southeast. Avoid trenching in those areas. Slash bundles from additional cleanup required after the chipper was hauled were skidded to the treeline, mainly along the north edge.
