Location: Grayling FMU

Proposal: **W72-924**

County: Crawford

T27N

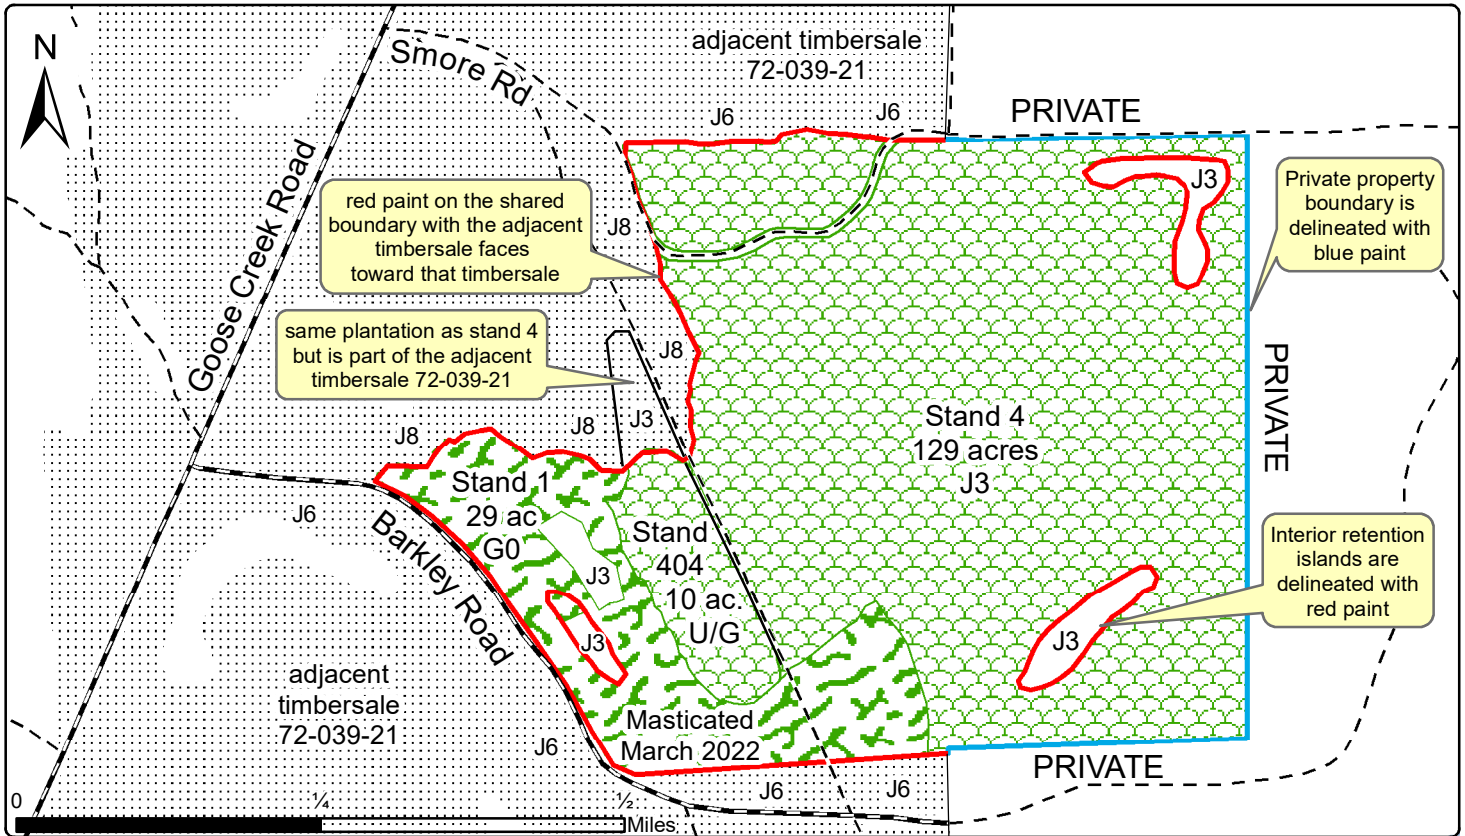

R4W

Sec. 30: NE, NWSE, NESW, E1/2NW

YOE: 2021

Comp: 179

Stands: 1, 4, 404

PROOFING COMMENTS
Rec: none w/in 500 ft
Water: none w/in 500 ft
HAL: None known at this time
MNFI: W/in large polygon for EMR potential but not on EMR Managed Lands. Dedicated KW Habitat.
Drafted & Reviewed: Feb 1, 2022 JC

ACTIVITY TRACKING

Coverture Objective: PLANTED JP	Acres: 168
Approved Methods: Masticate the immature cover in stand 1 & 4's plantation and in the old wildfire area (stand 404). Trench and plant JP for KW habitat. Roller chopping & herbicide were also approved.	
Timbersale number: N/A	
Sale admin staff: N/A	
Harvesting completed by: N/A (planted JP is 23 years old)	
Contract TCR date: N/A	
Comments: Exclude the red-bounded retention islands from mastication. Protect the blue-painted trees that delineate the private property boundary. Do not operate equipment or drop slash across the blue-painted boundary. Keep the mapped roads clear of slash. A proposal to close the road that crosses through the mastication area will be pursued, but a final determination won't be made until 2023, so it has to be left open during the 2022 cultivation work. This mastication area will be merged with the adjacent planting block once timbersale 72-039-21 is cut and ready for trenching.
