			Contract TCR Date: 10/31/2019	Cover Type Objective: Pine Barrens	

Internal Review Comments		Approvals		Prescription
		Signature	Date	
REC: None w/in 500 ft				<b>Approved Methods:</b>  Burn to maintain the Mud Lake Pine Barrens ERA. Brushing, mowing, planting, and herbicide may also be used to restore native plants and control invasive species, as described in the Mud Lake Complex ERA Management Plan.
WATER: Beaver Creek outside of 500 ft				
HAL: Sec 35 hit not identified within the Comp				
MNFI: MNFI-identified Pine Barrens natural community & ERA. Hill's thistle w/in & Alleghany Plum to East. W/in sec-wide historic occurrence of Pickerel frog.				
Drafted & Reviewed: 09/22/2024 Charlebois				
Additional Instructions & Notes				
EO was C-ranked in 2011. The stand was harvested in 2018. MNFI re-survey in 2023 reduced the EO Rank to D, poor estimated viability. The stand is still an ERA at time of FTP drafting though, so the incompatible elements of the 2026 YOE approved wildlife opening maintenance prescription were not included on this FTP.
