Timbersale number: 53-010-20-01

Sale admin staff: Greg Rekowski

Harvesting completed by: Fall 2020 - Biewer

Contract TCR date:

## Comments:

Access through a closed road off of Tin Shanty Road. The old landing will provide enough room to stage equipment. This FTP covers stands in 2 Compartments; stand 39 in Comp 37, and stands 44 and 12 in Comp 39. Tops were not chipped so there are localized areas of heavier slash accumulation, particularly in the east part of stand 39. Do not trench in the narrow finger that extends north in stand 39. Terrain is flat to gently rolling. A few scattered large diameter oak, red pine, and white pine are present throughout.
