

**FTP C53-544**  
**Compartment 62, stand 56**  
**90.1 acres**

Pink paint here,  
 remainder of boundary  
 is red paint.

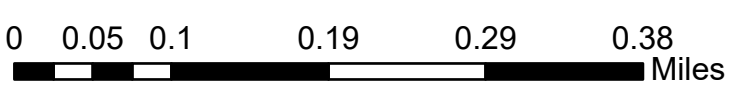

Yellow paint on west  
 boundary, remainder of  
 boundary is red paint.

Retention

**Objective:** Planted red pine. Treatment areas outlined in red above.  
**Methods:** Rollerchop as needed. Then trench and plant to red pine. No herbicide.  
**Timber sale information:** Hot Tub Pine Machine (#53-010-24). Bought by Biewer. Harvested and chipped in the summer of 2024.  
**Location:** Otsego County, T32N R02W, Sections 7 and 12  
**Terrain:** Rolling

**Recreation:** No  
**HAL:** No  
**Fisheries:** No  
**MNFI:** No

**FTP Comments:**  
 Rollerchop as needed, not all areas will require it. Do not rollerchop pockets of red pine regeneration that were protected in the harvest. Trench all the way to treatment edges, no gaps should be left as almost all surrounding timber has recently been harvested. See comments above about different boundary line paint. One interior retention pocket in the eastern part of the treatment, bounded by red paint.
