NOTES/COMMENTS:

Craig – I could not find any information in our files where we have searched for any of the corners between the township corner and the closing corner between Sections 2 & 3. There is a GLO stream call 25.00 chains west of the township corner. Someone may have chained over to the stream to see how the township corner fit east & west. All I can send you are the notes for the 2 corners you have already found. If you have not already called Ken Ross, I would like to see if he or Ken Stephens have ever looked for those corners. Good Luck!

NW Section Corner of Section 6 T19N R14W

CS TYPING TYPED

m

Nov 4 1915 I Edward A. Griffin
R.L.S # 13584 John D. Auring &
H.R. Radwell found a rotted
4" square Cedar Stake 300 ft
west of the east edge of a
Cedar Swamp. This Cedar Stake
was set by John W. Michelson
in 1908

Condition of recorded whittresses
#1 found remains of stump.

#2 Gone

#3 found remains

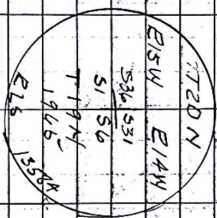

#4 Fair

#5 Fair scribbling still inside

#6 Dead & down

The location of the rotten Cedar
Stake checks well with the
remaining whittresses.

Nov 4 1945 I replaced (in the same location) the 4" Square Cedar Stake with a Standard Monument # 1.
(See Page # 235)
The brass disk is stamped as follows:

10" Dred Spike in the NW side of a Cedar 6" scribed "BT"	NWSE	10.43 ft
10" Dred Spike in the S side of the west face of a Turn Wagon 49 1/2" scribed "BT"	SE	59.42 ft
Center of a Headlat 13" (CST#)	SE	15.40 ft
10" Dred Spike in the NW side of a Cedar 6" scribed "BT"	SE	56.51
10" Dred Spike in the N side of a White Post 9" scribed "BT"	NW	53.10 ft
6 by 7' Cedar Post N	NE	1.4 ft
