SURVEY REQUEST

Requesting Agency Gaylord FMU - MDNR - FRD			
County Antrim	Township 31N	Range 05W	Section(s) 28
Location Warner Twp. - Map Attached		Priority High	
Survey Purpose Timber Sale Prep		Desired Completion Date 10/01/2024	
Requirements (specify lines or attach map) Establish NW & NE survey corners on the isolated 20 acre parcel in state ownership on the north side of deadmans hill road.			
Requested By		Date	
SURVEY PROJECT ESTABLISHMENT			
Assigned Priority		Expected Completion Date	
Assigned To		Supervisor's Signature	
COMPLETION REPORT			
Miles of Boundary Line		Date Completed	
Number of Corners Set		Number of Corners Upgraded	
Maps To		LCRC's To	

Surveyor's Signature:

SURVEY PRIORITY JUSTIFICATION

1. Is litigation involved now or being threatened? Explain:

No

2. If trespass is on state land, is the survey likely to prevent further trespass and harm, or is it to prove trespass? Explain:

3. Is prevention of access to a significant area of state land involved? Explain:

No.

4. Will a survey allow harvest of timber that is being held from the market due to survey problems? What is the value of the proposed sale? Explain (i.e., give the compartment, year of entry, timber condition, etc.):

Yes, this surveys will establish property boudaries for an upcoming timber sale. The sale will be approximately 80 acres, an approximate value of \$ 40,000. (Compt. 52047, Treatments: 52047033, 52047037, 52047035, & 52047013, 2024 YOE, (Hardwood sawtimber & Mixed Pine pulpwood).

5. Are there reasonable alternatives to a survey that will allow at least a partial or temporary solution? (Example: Reduce size of the sale, agreement with or notification of adjacent landowner until proper survey can be done, establish line yourself, etc.) Explain:

A buffered timber sale boundary could be used to harvest this timber. However, the area being surveyed is being planted to red pine. So it is in the states best interest to maximize growing space and protect it's property interest with the adjacent landower.

6. Other:

Thre are not many other survey corners in this area. However there are records of corners along the south line of this section (SE corner, SW corner & E 1/16 corner on S line & E 1/4 corner)
