TIMBER SALE PROSPECTUS #4558

SCHEDULED SALE DATE AND TIME: 9:00 a.m. (local time) on March 1, 2012.

LOCATION: BARAGA MGMT UNIT, 427 US 41 NORTH, BARAGA, MI 49908.

PROSPECTUS NOTE: Note that the T. P. Hardwoods State Forest Timber Sale has special requirements related to Payment Unit (PU) 6. An on-site meeting can be arranged to discuss these requirements. The DNR is conducting a test comparing different methods of measuring trees and determining tree volume. PU 6 contains two test areas and an area with no testing, i.e. no special treatment needed. Both test areas have 20 test plots, i.e. there is roughly one test plot per acre. "Cut" and "Leave" trees have been numbered at each plot. Certain "Cut" trees on each test plot must be felled and cut into product lengths when DNR staff is present. DNR staff will then make detailed measurements of each tree. There are 73 measurement trees in Test Plot Area 1 and 96 measurement trees in Test Plot Area 2.

The bidder is advised to inspect the sale area and review the location, estimated volumes, operating costs and contract terms of proposed sales. Please be aware that some landowners may request 60 days or more notice for access across their land.

Notice is hereby given that bids will be received by the Unit Manager, BARAGA MANAGEMENT UNIT, for certain timber on the following described lands:

T.P. HARDWOODS (11-010-11-01) / T52N, R36W, SEC. 03, S1/2.

T52N, R36W, SEC. 04, E1/2SE.

Houghton County, Advertised Price \$293,604.60, 342.0 Acres

SALE NOTE: Note that this sale has special requirements related to Payment Unit (PU) 6. There are certain test trees that must be cut within 90 days of contract execution or as soon after July 15th, 2012 as is practical. The cutting of the test trees must occur in one period of time, for example, over a period of one or two weeks. The cutting of these trees could be done independently of your normal harvest activities. In other words, a faller could work with the DNR staff falling and bucking trees independently of the purchaser's normal harvest plan. If the wood from the test trees is not removed from the site, then advanced payment is not required. If the test trees are removed from the site, then PU 6 must be paid in full. Plot locations and the list of measurement trees is available and will be provided at the pre-work meeting. The DNR will work cooperatively to make this an efficient process with minimum impact to either party.

No designated recreation site such as a trail, pathway, or campground is within the sale area or the vicinity. Access may be through private land.
