

Canada Creek DNR Stairs

Fish Species

Brook Trout

Species Description

Brook trout are the primary trout species encountered at this location.

Geographic Coordinates

Lat:45.229367 / Long:-84.218617

Noteworthy

This reach of the creek is popular among local campers. The stream is narrow and fairly deep at times and the substrate is predominantly sand.

Fishing Regulations

This site on Canada Creek is a designated Type 1 trout stream. Please refer to the Inland Trout and Salmon Stream Regulations in the current Michigan Fishing Guide.

Directions to Site

This site is best reached from a forest road located at approximately 2.5 miles north of the main entrance to Canada Creek Ranch. Turn west and bear right on trail road for approximately 0.3 mile until it turns from north to west. Continue on road for 0.3 mile to access site.
