

Mill Creek Port Huron State Game Area

Fish Species

Steelhead

Species Description

Mill Creek is stocked annually with yearling steelhead (potamodromus rainbow trout) that remain in the river for a short time before exiting the stream to later return as adults. These fish are often caught between 2 to 10 pounds and occasionally larger.

Geographic Coordinates

Lat:43.050037 / Long:-82.601614

Noteworthy

This site is within the Port Huron State Game Area. The river is wide enough this section so that it provides a good setting for fly fishing or spin cast fishing with spinners, spawn bags or wax worms under a bobber. This is mainly a spring fishery but some steelhead begin to enter the river in the fall providing opportunities through the winter.

Fishing Regulations

Mill Creek at this site in the Port Huron State Game Area is a designated Type 4 trout stream. Please refer to the Inland Trout and Salmon Stream Regulations in the current Michigan Fishing Guide.

Directions to Site

Starting from Port Huron, take I-69 to Wadhams Road (exit 196) and turn right (north) on Wadhams Road. The road will curve to the left and as it does it will actually change names to Vincent Road. Take Vincent Road to Beard Road (M-136) and turn left (northwest). Take Beard Road to the Old Ford Road pull off location. This location is just west of Gilshaw Drain and is a dirt pull off.
