

Sullivan Creek At Hatchery

Fish Species

Brook Trout

Species Description

This spot sees brook trout up to 8 inches.

Geographic Coordinates

Lat:46.3113 / Long:-84.80659

Noteworthy

This is a shallow, small stream (less than 10 feet wide), with lots of downed wood and cover. Casting may be difficult due to overhanging brush.

Fishing Regulations

This is a Type 1 Trout Stream. For more information, please refer to the Inland Trout & Salmon Regulations found in the current Michigan Fishing Guide.

Directions to Site

Take M-28 west of Raco to Sullivan Creek Trail. Turn south and go approximately 4.6 miles to river on U.S. Forest Service 3134.
