Report No. 1273

SUMMARY OF MOTOR VEHICLE OPERATIONS  
FOR THE CALENDAR YEAR 1950

By

Robert C. Barber

FISH DIVISION

This is the tenth annual report on motor vehicles operated by the Institute for Fisheries Research. To facilitate a comparison with other annual vehicle reports, the author has followed the same general pattern as for the previous reports. All tables are self-explanatory. Only the summary tables 1 and 2 have been typed and are included in this report as distributed. The detail tables of individual unit operational costs are on file in Ann Arbor with the Institute's copy of this report.

One new vehicle was purchased in January, 1950; a suburban carryall, license number 12-617. A 1948 carryall, which was a total loss in an accident, was traded in on the new one.

Vehicle number 12-675, a 1949 Ford F-6 stake body truck, was transferred from the Fish Division's Oden Hatchery to the Institute on July 31, 1950.

Vehicle number 12-654, a 1947 Willys Jeep pickup, was returned to the Lake and Stream Improvement Section on May 1, 1950.
