SPECIAL MARKING INSTRUCTIONS

These stands are primarily red maple with sugar maple, beech, and aspen. Manage for the best tree in place, but discriminate in favor of the oak and sugar maple. Create regeneration gaps where lower quality trees exist. Mark all trees in the regeneration gaps. Do not mark quality trees to create regeneration gaps. For sawlog trees paint dots on one side of the tree to represent the number of 8' logs cruised. Each sample point is to be recorded and clearly marked on the ground for the administrating Forester to locate and review. Stump marks are to be placed from the ground up one foot and clearly visible. Do not mark on rainy days or with snow around the stumps. Mark at least one tree per stand with "DROP" for timber sale producer to cut. "Drop" tree should be 10" or greater dbh with few limbs so that the bole of the tree when felled contacts the ground. Do not stump mark drop trees.

Unless otherwise specified, the tally sheets used must be those provided by the Forest, Mineral and Fire Management Unit.

RESTRICTIONS

1. Forest, Mineral and Fire Management Division must to be able to identify who did what on the timber sale.
2. The contractor may not have more than two markers in one payment unit without prior approval.
3. Each marker should have an assigned area to mark (not strips).

PAINT

1. Call Greg Gatesy at (989) 732-3541 ext 5441, to make arrangements for paint.
2. Paint will be supplied from (location).
3. Contractor's work schedule must coincide with the DNR work schedule for paint supply.
4. The DNR will not be available on weekends or evenings.

DELIVERABLES

1. A list of names that marked or cruised each payment unit.
2. A summary of paint used (in quarts).
3. Tally summaries for each payment unit (one summary, regardless of the number of markers) and all of the original tally sheets.
4. GPS files for any GPS work.
