Re: Coating Repairs Work Plan (CRWP) Method 3 Evaluation

Dear Director Grether:

Pursuant to the Michigan Department of Environmental Quality's October 5, 2017 letter of approval of the CRWP, Enbridge is providing to the Department the following documents: the evaluation by Stress Engineering Services Inc. of coating repair Method 3; the applicable product data sheet; and the revised Application of Underwater Repair Coatings for Line 5. This method has been approved by the U.S. Environmental Protection Agency (US EPA) and Enbridge anticipates using this method in some instances for coating repair work during the 2018 work season.

Enbridge would be happy to discuss or answer any questions you might have.

Sincerely,

ENBRIDGE ENERGY, LIMITED PARTNERSHIP
