Re: State Letter dated January 11, 2018 – Enbridge Supplemental Response

Dear Mr. Reichel:

Attached please find additional responses by Enbridge to questions asked in your letter of January 11, 2018. These responses supplement the information previously provided in my letter to you dated January 25, 2018.

As before, documents being provided by Enbridge have been uploaded to the SharePoint Site established by Steptoe. We have organized the documents into folders that correspond to the numbered items in your January 11 letter.

As discussed in the attached responses, we currently are producing samples of the types of documents that are available with respect to ILI runs. That is because the volume of documents potentially at issue is quite large. The response to Item 3 suggests that the next step in determining the final universe of documents to be provided would be for integrity specialists representing the State and Enbridge to talk by phone once the State's representatives have had a chance to review the documents being provided today. Please let me know if this is a proposal that the State would like to pursue.

We look forward to talking further. Please let us know if you have any questions regarding the attached responses.

Sincerely,

William T. Hassler
