Re: Enbridge Line 5 in the State of Michigan
Initial Designation of State Participants
in Evaluations and Assessments

Dear Mr. Shamla:

As you know, Sections I. D. through G. of the November 27, 2017 Agreement between the State of Michigan (State) and Enbridge Energy, Limited Partnership and Enbridge Energy Company, Inc. (Enbridge) includes several agreed upon evaluations and assessments to be performed by Enbridge concerning the operation and maintenance of Line 5 located in this state. Under Paragraphs I. A. 1. and 3. of the Agreement, the State and Enbridge agreed that designated representatives of the State will have the opportunity to fully and directly participate in the preparation of those evaluations and assessments specified in Sections I. D. though G.

I am writing on behalf of the State, and pursuant to Paragraph I. A. 1. of the Agreement, to provide the State's initial designation of the State personnel who will participate in the evaluations and assessments. The following members of the State technical team have been initially designated to participate in the evaluations and assessments listed in Sections I. D. through G:

- Travis Warner, Michigan Agency for Energy, WarnerT3@mivihigan.gov;
- Mark Sweatman, Michigan Department of Natural Resources, SweatmanM@mivhigan.gov;

- Matt Goddard, Michigan Department of Environmental Quality, GODDARDM@micihgan.gov.

In addition, the following State subject matter experts have been designated to participate in two of the evaluations and assessments:

- For the evaluation of alternatives to replace the dual pipelines under Section I. F., Michael A. Mooney, MooneyM@michigan.gov; and

- For the evaluation of Line 5 water crossings other than the Straits, Daniel Cooper, CooperD8@michigan.gov.

The State anticipates that it will supplement these initial designations with additional personnel in the future.

Finally, to facilitate coordination between the State and Enbridge regarding these evaluations and assessments, the State suggests that key technical designees for the State and Enbridge conduct bi-weekly conference calls beginning in January 2018, to review the status of the evaluations and assessments. Travis Warner will serve as the main point of contact for the State for such communications. He can be reached at 517-284-8315 or the email address noted above.

Thank you for your attention to and cooperation in these matters.

Sincerely,

Robert P. Reichel
